European GBAS Alliance

Collaboration Event

Dear ladies, dear gentlemen,

We are pleased to invite you to a two-day European GBAS Alliance event that will be held in Toulouse on June 4th and 5th, 2019.

This event will focus on the European GBAS Alliance initiative and ways of working together for a future coordinated and synchronized deployment of GBAS Cat 2/3 in Europe.

This invitation is addressed to European ANSPs, airports and Airspace Users that are potentially motivated to deploy this promising technology for precision approach and landing. Representatives for organisations such as SESAR Deployment Manager, EASA, IATA and Eurocontrol are also invited.

The objective of this event will be to share views and exchange between ANSP, Airports, Airlines and industry stakeholders, to define ways of working together and identify the next steps needed to progress on future GBAS Cat 3 deployment projects.

We will also discuss and explore opportunities to seek EU co-financing through CEF Transport calls 2019 and 2020.

If you are interested in attending this event, please kindly complete the attached registration form and return it to francoise.bachelier@airbus.com no later than May 10th, 2019.

We look forward to your participation and to welcoming you at this event in Toulouse.

Yours sincerely,

European GBAS Alliance - June 4-5 event - EYIB - Ref. IN1900247
